Complete rewiring of the existing socket circuits serving the **2 bedrooms, living room and kitchen**. New electrical cabling will be installed using **PVC trunking** to minimise wall chasing, dust and disruption to the occupied property.

The works include new socket circuit cabling, PVC cable containment, associated electrical accessories and connections, installation of a **new consumer unit with RCBO protection and SPD**, full testing and inspection, and issue of the relevant electrical certification upon satisfactory completion.

Works will be carried out in sections to minimise disruption to the tenant and maintain a safe and tidy working environment throughout the project.

Thanks for choosing [Norm Electrical Engineering](#) | info@normelectric.co.uk Hope to work together on this projects .

Hrs/Qty	Service	Rate/Price	Adjust	Sub Total
1	Bedroom 1 – Socket Circuit Rewiring Removal/isolating of the existing socket wiring and installation of new electrical cabling for the socket outlets in Bedroom 1. New cabling will be installed using suitable PVC trunking to minimise chasing and disruption to the occupied property.	£650.00	0.00%	£650.00
