**ELECTRICAL, GAS AND FIRE INSTALLATION KEY**  
 Building Regulations Part P - Electrical Safety in Dwellings  
 All wiring and electrical work will be designed, installed, inspected and tested in accordance with the requirements of BS7671, the IET 18th Edition Wiring Guidelines and Building Regulations Part P (Electrical safety by a competent person registered with an electrical self-certification scheme authorized by the Secretary of State).

The prescribed competent person is to send to the local authority a self-certification certificate within 30 days of the electrical work's completion. The client must receive both a copy of the self-certification certificate and a BS7671 Electrical Installation Test Certificate from the prescribed competent person.

Contractor note:  
 Refer to BE series drawings for exact socket positions. Electrical diagrams to be used in conjunction with information and wiring diagrams from sub-contractors.

Any discrepancies to be reported to A&I prior to installation.
